YOUNG HACKS ACADEMY

INSPIRED AND EMPOWERED.

This all-girl design team is ready to change the world, using their collective creativity to produce digital media with a positive impact!

A celebration of collaborative problem-solving and empowerment, **YHA Team Elektra** all-girls program explores how the combination of digital tools and creative expression can make a difference in the local and global community.

As a new design start-up, Team Elektra members join together to raise awareness about the **United Nations Sustainable Development Goals** for 2030. Using cloud-based software, team members create websites with informational graphics and videos that communicate to the world who we are and the positive change that we seek.

Each day, the program addresses important themes relevant to being a healthy adolescent, like identity, self-respect, and connectedness. Unleashing confidence and life skills in a week full of creativity, design, color, and fun, YHA Team Elektra prepares today's generation of middle school girls to become inspirational leaders of tomorrow. For more information, visit younghacks.com.

"My daughter was extremely proud of her work. She thought YHA was the best week of her summer."

– Jennifer, Sharon, MA

"My daughter thoroughly enjoyed YHA. She seemed super confident of her new capabilities and eager to learn more. Thanks YHA for making learning so interesting."

– Melissa, Hardwick, VT

"My daughter just loved her Team Elektra experience. She had a blast while learning useful skills that will benefit her in the future. She was really proud of the game she created and made some friends along the way!"

– Irene, Burlington, VT
