“We can not always build the future for our youth, but we can build our youth for the future.”
Franklin D. Roosevelt
Philosophy

Waukee Schools Child Care Center will provide a safe, fun, and open environment for the children as well as for the parents. By recognizing that each child comes to school with different needs, expectations, and interests, it is our job as educators to accept each child as an individual and be aware that each child develops at their own level. We also believe that by providing your child with the best and most current educational program, it will help enhance a child’s self esteem, interest, and motivation to learn. Each child will have experiences in the following areas:

1. Social Development
2. Music
3. Art
4. Science
5. Language
6. Math

We believe that children have positive attitudes when they are in a positive environment, which then creates positive learning.
